描述

The screenshot shows a web application interface for a vendor appraisal notification. The main content area displays details for a notification with ID 422. The notification is currently in the '审批中' (Under Review) state. A modal window is open for providing approval comments, with the text 'test' entered. The modal has two buttons: '同意' (Agree) and '拒绝' (Reject). The '拒绝' button is highlighted in red. The background page shows a sidebar with navigation icons and a top navigation bar. A red error message is visible at the bottom of the page: '调用SAP接口失败 错误代码: 50020'. The footer contains copyright information for UAT and the version number 20212081029.
